

TOP GLOUCESTER SOLICITORS HAVE THE ABILITY TO E-BILL THROUGH DPS SOFTWARE WITH LSG AND ACE

Tayntons Solicitors are an ACE provider and have developed workflows for ACE work with their current DPS system.

At the end of 2004 Tayntons discovered that they had to provide e-bills to ACE through the Advocator System™. With limited time to comply Dolores Philips of Tayntons developed their DPS system to conform within just two weeks.

E-billing, as defined by ACE, allows comprehensive cost and billing reports to be submitted online in real-time by the solicitor. Some of the advantages over paper or hard copy billing are:

- Speed of information transfer (via XML) from the solicitor to the funder.
- Reduced data entry (for the solicitors' practice and funder), as cost data is immediately 'imported' into the funders own systems for processing.
- Reduced administration since data is automated, allowing more work to be processed by the funder.
- Accurate running case costing for both the solicitor and the funder

The Advocator System™ is where "LSG has developed its own proprietary litigation management application which is web-based and enables users to perform e-billing, and Case and Financial Management activities online. The patented software application is designed for use on a global basis, allowing for multi-currencies and accommodating

many regional jurisdictional structures and formats."

Dolores achieved compliance with limited help from the DPS programming team; she was able to develop the system herself due to its' sheer flexibility and ease of use. Her main role within the firm is to understand legal workflows, Dolores is not a programmer and has no programming skills.

TOP GLOUCESTER SOLICITORS HAVE THE ABILITY TO E-BILL THROUGH DPS SOFTWARE WITH LSG AND ACE cont.

“After initially approaching DPS with the changes regarding e-billing and having the ability to comply with ACE, our system was turned around in no time at all. I found the DPS system easy to develop, but if I did need any guidance the DPS programming team were always available and willing to give me help whenever I needed it.”

About Tayntons

Operating from two city centre sites in Gloucester, their team provide focused advice and support across all non-criminal legal disciplines. Their commitment to excellence is underpinned by their accreditation with Investors In People, and the profile of key team players including members of the Law Society’s specialist panel for Personal Injury, Family and Child Care Law.

The six partners who lead their firm come from a variety of legal backgrounds and are therefore able to offer excellence in their specialisms, guiding their business forward and ensuring total client satisfaction at all times.

About Legal Solutions Group (LSG)

Legal Solutions Group (LSG) is a specialised consultancy focused on litigation planning and legal services performance measurement in the financial services industry, including the insurance and banking sectors, but also the general corporate marketplace. Additionally, LSG also supports a number of government initiatives.
